# CAT on Film

Join us at Café CAT at HOME for a screening of CAT training films

- **Kathryn Pemberton** will present excerpts from the series of films she directed and produced for Catalyse, using actors illustrating the course of a fictional cognitive analytic therapy
- **Dawn Bennett**, Director of the CAT North/Catalyse CAT Practitioner Training Course, will share initial feedback from piloting the films in training and invite discussion
- This event has been arranged in response to interest expressed at the recent celebratory conference marking '25 years of CAT Training in the North'. We hope to arrange another screening in Sheffield later this year.
